

Are You Ready For The Digital Transition?

If you use "rabbit ears" or a rooftop antenna with an analog television, you must take some action before February 17, 2009 to continue receiving television broadcasts. Full-power television stations nationwide must switch from the analog method of transmitting TV signals to broadcasting in a digital signal only. The information below will help you identify what you need to do to be ready for the digital switch on February 17, 2009.

All of your TV sets are connected to cable, satellite or other pay service.

If all your TV sets are connected to cable, satellite or other pay service, check with your provider to see how they will support your analog set after February 17, 2009 and you should be okay.

At least one TV set in your home is not hooked up to cable, satellite or other pay service.

You must take action before February 17, 2009. Your options include:

- ♦ **Buy a converter box that will plug into your analog TV.**
- ♦ **Buy a TV with a digital tuner.**
- ♦ **Connect your analog TV to cable, satellite or other pay service.**

A converter box is a one-time purchase that will allow you to use your analog TV after February 17, 2009. The Federal Government is offering U.S. households up to two \$40 coupons to help pay for the cost of certified TV converter boxes. Certified TV converter boxes cost between \$40 and \$70.

For more information or for assistance in ordering and installing your converter box call the Michigan DTV Helpline at 1-888-MI-DTV-09. Hours of operation are 7:00am to 9:00pm Monday through Friday and 7:00am to 3:00pm Saturday & Sunday.
